

# HOW ARTIFICIAL INTELLIGENCE WILL CHANGE THE FUTURE OF THE WORLD

Artificial intelligence and machine  
learning

# ARTIFICIAL INTELLIGENCE WILL MAKE A HUGE DEVELOPMENT IN DIFFERENT SECTORS.

## SOME ARE AS FOLLOWS:-

- *Healthcare department*
- *Cybersecurity*
- *manufacturing sector*
- *Banking sector*
- *Law firms*
- *It sector*
- *Research*

# WILL ARTIFICIAL INTELLIGENCE BE HELPFUL OR A CURSE FOR HUMANITY

*Artificial intelligence can be both dangerous and a boon for humanity.*

*many theories say that AI will take over humanity in the coming decades.*

*some people believed that AI will be the last invention of humans.*

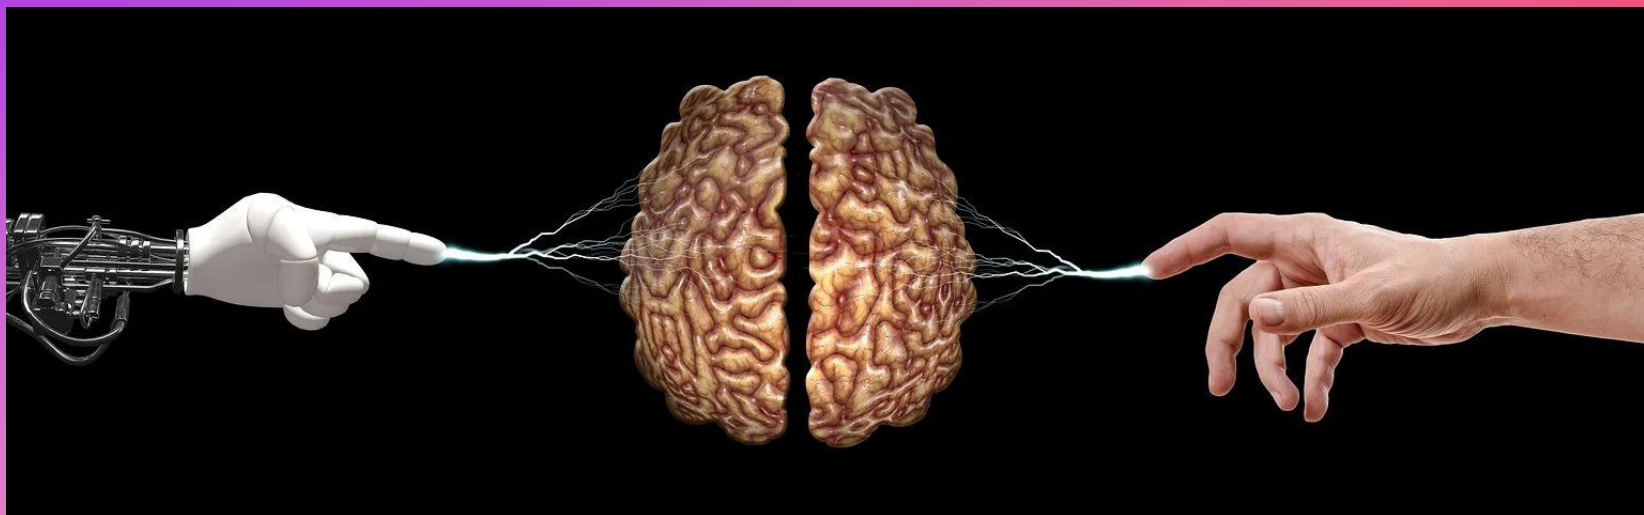

*AI can make a huge difference in shaping the future and it will.*

*AI has the power to shape the future in favor of humanity.*

# WILL ARTIFICIAL INTELLIGENCE STEAL PEOPLE JOBS?

The answer is they might or they might not. It is hard for a human to do that Artificial intelligence can do in less time. They have many limitations but sometimes that limitations work in their favor.

But as AI will grow there will be several new jobs roles will be invented shortly
